

# NEWS from the Paranormal Investigators of Milwaukee

July 2015

Issue 35

### Special points of interest:

PIM offers scientific investigations of suspected paranormal activity in homes, businesses, and historic sites. We pride ourselves on providing confidential, professional services free of charge.

To have PIM conduct an investigation for you, contact Noah Leigh (Lead Investigator) through our website or by the phone number listed above.

We look forward to meeting you at a public event, investigating with you, or just hearing from you on Facebook or Twitter!

# 2015 Paranormal Conference

On June 6th, 2015 Milwaukee hosted it's first paranormal conference in years. Lets just say It's About Time and PIM would like to send a huge thanks to Milwaukee author, journalist and friend of PIM, Tea Krulos. Tea coincided the conference with the release of his most recent book, Monster Hunters, and both were a HUGE success. Over 900 people attended the conference

proving that PIM was not the only ones thinking Milwaukee was long overdue for a ParaCon.

It was especially nice to have so many people stop at the PIM booth to talk paranormal and ask us questions. Noah gave a talk to a full house (or should we say church) which was so exciting and wonderful to see too! So what's in store for 2016....The only thing we know for sure is there will definitely be another conference but this time it will be in October of 2016. Much brainstorming will be done over the next few months and be sure that we will keep you informed with announcements as they come. We are already excited for next year!

## Upcoming Events and Investigations

- PIM has recently taken on many new clients looking for our help. We will be getting very busy over this month and we look forward to the opportunity to help these people discover what is happening in their homes. We will be doing some traveling to places in towns that we have never had investigations before and some familiar places closer to Milwaukee. We will keep you posted in our findings .

## Whispers Estate

On August 17th PIM will be taking a road trip to Indiana to investigate an old Victorian home built in 1899 that has been given the name "Whispers Estate". The building was given this name by many individuals claiming to hear whispering coming from all directions in the structure. No source can be found for these whispers but the people who hear them say it is very real.

Lets turn back the clock to 1899. Back to when the home was just that, a home to Dr. John Gibbons and his wife Jessie. History tells us this couple was very loving and just adored children. Unable to have their own, they adopted three orphaned children.

The oldest, a 10 year old girl named Rachael started a devastating fire in the front section of the house. She was very badly burned and died in the home less than 2 days later. This was just the beginning of the tragedies. Their 10 month old baby named Elizabeth died shortly after Rachael. The cause of her death is unknown. Jessie was devastated upon the death of two of her three children and developed a severe case of pneumonia. She died two short weeks after Elizabeth.

As time went on another small boy was claimed to have died in the home after falling down the stair case.

So much tragedy has taken it's toll on the home. Many claim that it's victims never left the house and claim to see a small girl that appears to be the age of 10 in various rooms in the home, some say they hear her too. Some say they smell baby powder in the master bedroom where the 10 month old baby died and claim to hear the sounds of a baby crying. Others have said they hear sounds of heaving or difficult breathing and coughing or feel pressure on their chest as though they themselves have pneumonia. Besides these claims others have said they hear door handles moving by themselves and closet doors opening unexpectedly.

PIM has had Whispers Estate on their list of places to investigate for a long time and cannot wait for the opportunity to explore these claims for ourselves! We have so many questions about the place and hope to leave with some answers. We will be entering with open minds and of course a large amount of equipment to help us do our research. We will be excited to share our findings with you when we return.....

### Recent Investigations News and Highlights:

- On June 6th PIM had the great pleasure of hosting a public investigation of the Chudnow Museum of Yesteryear. Although we didn't capture any evidence, PIM would like to send a huge thanks to everyone who came out for the night. We hope you had a great time and join us again on future investigations. PIM would also like to thank the staff at the Chudnow for allowing us the opportunity to investigate this beautiful, historic building again!
